PROSPECTUS

INTRODUCTION

Mother Teresa College of Nursing, Muvattupuzha is one of the teaching institutions under the umbrella of Mother Teresa College of Nursing and Educational Charitable Trust. It was established in the year 2025 to provide the best health care and to provide high-quality education. Mother Tersea College of Nursing is established with an intention to provide excellent teaching and learning opportunities to its students.

This prospectus contains the rules & regulations applicable for selection and admission to B.Sc. Nursing course in Mother Teresa College of Nursing for the academic year 2026-2027.

The rules contained in this prospectus are subject to addition/deletion/ modification as may be deemed necessary subject to orders of competent authority/court of law.

The annual intake of the college is 50. 50% of the total intake is from the state merit list (LBS), 35% of the total seats shall be filled up from among the candidates who are eligible as per the Prospectus for the course published by the Director of Medical Education based on the applications received against notification by College Management directly and in accordance with merit in the qualifying examination. 15% of total seats of the Colleges shall be filled up by eligible students who are children/dependents of Non-resident Indians.

MISSION

Our Mission is to prepare competent and compassionate nursing professionals through quality nursing education, evidence – based clinical practice, research and community engagement, fostering leadership, critical thinking and lifelong learning to meet the evolving health care needs of society.

VISION

Mother Teresa College of Nursing is to be a centre of excellence in nursing education, nurturing competent and compassionate nursing professionals committed to quality health care and community well-being.

PHILOSOPHY

Mother Teresa College of Nursing, Muvattupuzha believe that Nursing is a profession based on the holistic concept of care, directed towards identifying

health needs of people, planning and providing high-quality care in collaboration with other health professionals and community groups.

We believe that the Undergraduate nursing programme is broad based education within an academic framework specifically directed to the development of critical thinking skills, competencies & standards required for practice of professional nursing & midwifery as envisaged in National Health Policy 2002.

We believe that Nursing is based on values of caring and aims to help individuals to attain independence in self-care and it necessitates development of compassion and understanding of human behaviour among it's practitioners to provide quality care with respect and dignity and protect the rights of individuals and groups.

We believe that the Undergraduate nursing education programme prepares it's graduates to become exemplary citizen by adhering to code of ethics and professional conduct at all times in fulfilling personal, social and professional obligations so as to respond to national and international aspirations.

We believe that an expert faculty with varied areas of expertise is required to carry out the educational mission of the College

We believe that the faculty has the responsibility to be the role models and create learning environment that facilitates cultivation of critical thinking, curiosity, creativity and inquiry driven, self-directed learning and attitude of lifelong learning in students.

We believe that high-quality education, transforms lives and that students should be prepared to actively participate in a global community.

The intent of the educational programs is to focus on the learner. Education is a lifelong process, with the commitment of the learner to establish patients of continued enquiry.

OBJECTIVES

On completion of the B.Sc. Nursing program, the Nursing graduates will be able to –

1.Provide promotive, preventive and restorative health services in line with national health policies and programs.

2. Integrate theory into practice that encompass values, ethics, morals and legal aspects of nursing.

3. Respect the dignity, worth, and uniqueness of self and others.

4. Demonstrate leadership qualities and acquire skills in problem solving and decision making at different levels of work.

5.Utilize the latest trends and technology in providing care.

7.Collaborate with health team members and demonstrate skill in providing health care to all age groups at all settings.

8.Evaluate the care and make the necessary changes in care.

9.Strive continuously to improve the quality of care.
